Letter of support from the Swiss Parliament for the staging of the UEFA Women's EURO 2025 in Switzerland

We have a dream: to hold the European Women's Football Championship 2025 in Switzerland!

The staging of the largest women's sporting event in Europe is a huge opportunity for Switzerland. We are an open-minded and progressive country that is committed to equality and equal opportunities. We want to take advantage of this unique opportunity to present the European women's football elite to the world and, at the same time, to further promote and advance the women's game in Switzerland and in Europe, which is so much on the rise.

Eight cities are in line to host the event. So far, 45 million Swiss francs in commitment credits and financial aid have been pledged by cities and cantons should Switzerland win the bid. Proof that Switzerland wants this tournament.

"For more and better football! For everyone! In all of Switzerland!" That is the mission of the Swiss Football Association. Let us now go one step further. "For more and better football! For everyone! In Europe and in the world!"

With a football festival by and with all Swiss women and men for the women of Europe. A sustainable tournament with fully existing infrastructure, stadiums, hotels and short distances on an optimally functioning transport network. A tournament in a politically safe country. An economically and ecologically sensible sporting event with international appeal and impact.

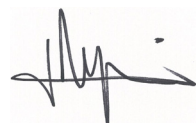

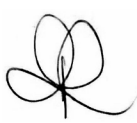

The signatures of our Federal Councillors, National Councillors and Councillors of States, of us representatives of the people, are proof that Switzerland wants to hold this tournament for women and is ready for it.

Hopp UEFA Women's EURO 2025 i de Schwiiz!!!

As a representative of the Swiss Parliament, I support the bid for the UEFA Women's EURO 2025 in Switzerland:
